

The Headjoint Specialist

Products and Features through Patented Technology

No-Slip-Lip®

Benefit: At no extra cost the contact area of every lip plate is beautifully engraved to help prevent skidding caused perspiration.

Free-Flo®

Benefit: Lip plate and riser area in front of blow edge shaped to reduce wind noise.

Platinum-Air-Reed™ or Gold-Air-Reed®

Benefit: Exotic metal blow edge was specifically alloyed to eliminate knife-edge-buzz, providing the quickest, cleanest response.

Modern-Wing™

Benefit: Provides a specially shaped lip rest area for increased comfort and ease of blowing.

MaxHeadjoint™

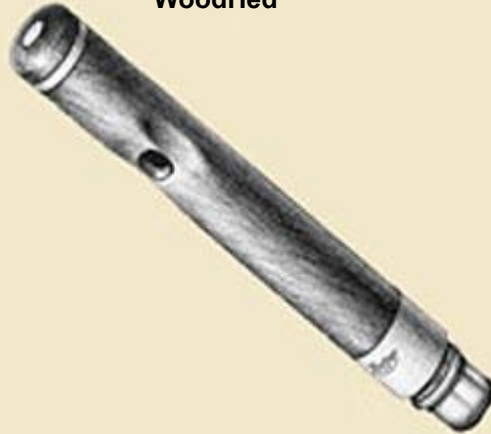

Benefit: Combines all the unique features of our other models.

Bow-Tie™ Piccolo Headjoint

Benefit: Makes playing piccolo as easy as playing the flute. And the high notes are effortless.

WoodHed™

Benefit: Optikut® wood headjoints bring the beautiful timbre of wood to your precious metal flute.

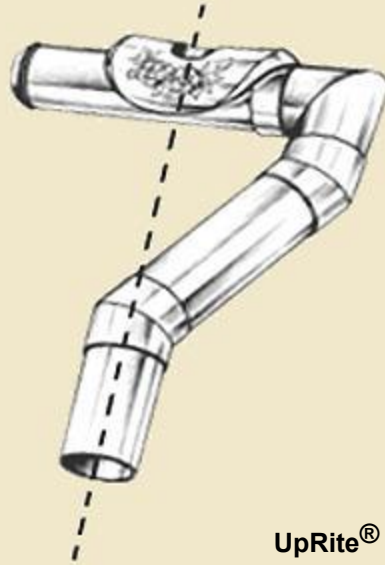

TOOTS™

*The acronym for Third Octave Optimal Tuning & Stabilization.
Its benefit is summarized by its acronym.*

Quiet-Crown™

Benefit: Crown-cork assembly is constructed using elastometric binders which totally eliminate potential for mechanical vibrations.

UpRite®

The UpRite is Drelinger's new headjoint for playing your flute vertically.
